

## Quality and Environmental Policy

At VBN Components AB, we are dedicated to delivering innovative, high-quality materials solutions that meet the evolving needs of our customers while contributing to a more sustainable and resource-efficient industry. Through advanced materials development, additive manufacturing, and continuous innovation, our vision is to redefine wear resistance through 3D printing and enable longer-lasting, more efficient industrial solutions.

### Our Commitment

- **Customer Focus and Quality Excellence**  
We are committed to understanding our customers' needs and consistently delivering products and services that meet or exceed their expectations. We maintain a strong focus on reliability, traceability, and performance throughout our research, development, production, and delivery processes.
- **Certified Management Systems and Compliance**  
We maintain and continuously improve our integrated management system certified according to ISO 9001 and ISO 14001. We comply with applicable legal, regulatory, customer, and other relevant requirements, and ensure that our processes support high standards of quality, environmental performance, and business responsibility.
- **Continuous Improvement and Innovation**  
We are committed to continual improvement of our quality and environmental management systems, products, services, and processes. Through research, development, and advanced manufacturing technologies, we strive to solve customer challenges and create innovative solutions with improved performance and sustainability.
- **Environmental Protection and Resource Efficiency**  
We are committed to protecting the environment, including the prevention of pollution and the sustainable use of energy, raw materials, and other resources. We work systematically to reduce waste, emissions, environmental risks, and the overall environmental impact of our operations and value chain.
- **Employee Engagement and Competence**  
Our employees are essential to achieving our quality and environmental ambitions. We promote a culture of quality, environmental awareness, innovation, collaboration, and continuous learning by providing the necessary competence, training, and resources.
- **Responsible Business and Stakeholder Engagement**  
We conduct our business with integrity, transparency, and responsibility. We actively engage with customers, suppliers, partners, and other stakeholders to understand their expectations and to promote responsible and sustainable practices throughout our value chain.
- **Implementation and Review**  
This policy provides the framework for establishing quality and environmental objectives and is communicated to all employees and made available to customers, suppliers, and other relevant stakeholders. The management team is responsible for ensuring that this policy is implemented, maintained, and regularly reviewed to ensure its continued suitability, effectiveness, and alignment with the strategic direction of VBN Components AB.
